YOUR SUPPORT WILL HELP SAVE MORE LIVES

Motor vehicle crashes continue to be the leading cause of death and disability in America. Despite progress, over 40,000 people die annually on our roadways. Surviving a motor vehicle crash is dependent on the severity of the crash and the injuries incurred, but it is also linked to the knowledge, skills, and ability for rescuers to expedite a safe and fast extrication.

Tragic vehicle crashes will continue to go on and on but together we can do better to ensure victim(s) of vehicle crashes are afforded a safe and fast extrication when their lives are in jeopardy!

The Bark River Training Group and Town of Lisbon Fire Department provide an exceptional and educational vehicle rescue challenge and learning symposium.

The participants are rescuers who spend many hours practicing vehicle rescue techniques preparing for this opportunity to work with their peers and spend time with the top vehicle extrication specialists in the country. What they bring back to their communities is a wealth of information and newly refined skills, along with a stronger and diversified team of rescuers to better serve their community or assist another community during a crash involving victim(s) of vehicle entrapment.

The 8th Annual SAFE Challenge and Safety Dayz will be held at Lisbon Community Park (N78W26970 Bartlett Pkwy, Hartland, WI). This symposium is family interactive. Join us... come watch the teams as they are summoned to a mock vehicle crash and perform an extrication rescue. There will also be fire trucks, exhibits and safety demonstrations held throughout the day.
